14-Day Testing Plan

Real Use. Real Feedback. A Safer, Stronger App for Families.

Calendar
Keep schedules, deadlines and events in one place.

Journaling
Capture important moments, notes and information.

Microphone Assistant
Voice help for how-to's, FAQs and app navigation.

Lists & Chores
Stay organized at home and on the go.

Family Organization
Tools to help families stay connected.

1 Days 1–3
Get Started
- Create account
- Explore features
- Add calendar entries
- Create a journal entry
- Try the microphone assistant

2 Days 4–7
Use in Daily Life
- Add real (or sample) schedules
- Use lists and chores
- Try regular tasks
- Note anything confusing or that takes extra steps

3 Days 8–11
Check Reliability
- Verify information saves correctly
- Close and reopen the app
- Test permissions
- Look for crashes, freezing or lag

4 Days 12–14
Final Review
- Note unresolved issues
- List missing features or needed microphone commands
- Share what worked well and what didn't

5 Send Feedback
- Your responses help improve performance, usability and safety before Ai-Neut reaches the Google Play Store.

What it takes
- An Android phone (Android 7 or newer)
- A Gmail address (so we can add you to the test)
- Keep the app installed for 14 days
- Open it now and then
- Tell us honestly what could be better, safer, or more helpful for kids and families

Testing Guide & Feedback Questions

Try the app. Use it in real situations. Tell us what works, what doesn't, and what could be better.

1 General Experience

- What were you trying to do?
- What happened when you tried it?
- What did you expect to happen?
- Could you complete the task?
- Did the problem happen again?
- What device and Android version were you using?

2 Calendar

- Could you create, edit and delete events?
- Was it easy to set reminders?
- Did events sync and stay saved?
- Was the calendar layout easy to understand?
- What made it easier or more confusing?

3 Journaling

- Could you create, edit and save entries?
- Was it easy to organize or find past entries?
- Did anything get lost or not save?
- What worked well?
- What would make it more useful?

4 Lists & Chores

- Could you create, and check off items?
- Was it easy to organize by person, category or due date?
- Did items stay saved?
- What worked well?
- What would make it easier to use?

5 Family Organization

- Was it easy to set up and manage family members?
- Did sharing or connecting work as expected?
- Were permissions clear?
- What worked well?
- What would make it more useful for families like yours?

6 Microphone Assistant

- What did you ask the microphone to do?
- Did it understand and respond correctly?
- What commands or questions didn't work?
- What did you expect it to do?
- What additional commands or information would be helpful (e.g., how-to's, FAQs, navigation)?

7 Performance and Reliability

- Did the app load quickly?
- Did you experience any crashes or unexpected closes?
- Did it freeze, lag or run slowly?
- Did information save correctly?
- Did the app work reliably over the 14 days?

8 Privacy and Safety

- Were the permissions clear and easy to understand?
- Did anything raise concerns about privacy or safety?
- Did you feel comfortable using the app for family organization?
- What would make you feel safer or more confident?

Final Thoughts

- What worked best for you?
- What were the biggest problems?
- What features are most important for families like yours?
- What would you like to see added or improved?
- If you could sum up your experience in a few sentences, what would you say?

Thank you for helping make Ai-Neut better for families!
